Note.—The University Statutes provided that if any of the Fellows “be a Fellow or Professor of any other University, or College attached to an University, or College endowed with public money, and in receipt of a salary in respect of such other Fellowship or Professorship, he shall receive, in respect of his Fellowship in this University, such annual sum, as with the salary of his other Fellowship or Professorship, shall amount to 400 *l.* a year.” The 12 Fellows who are attached to one or other of the Queen’s Colleges are Professors therein, and in receipt of salaries as such. The annual amounts payable to them are calculated in accordance with the above provision.

* Mr. Larmor having, as Fellow of St. John’s College, Cambridge, and Professor in Queen’s College, Galway, more than 400 *l.* per annum, receives no salary from the funds of this University.

** The amounts stated to have been paid to Messrs. Hopkins and Curtis were the proportionate parts of their respective salaries from the 30th day of January 1884, the date of their appointment down to 18th July 1884, being the last date within the period indicated by the return up to which the salaries of the Fellows were paid. A similar observation applies to Messrs. Cunningham, Geisler, Polin, and Sigerson, save that the date of their appointment was 29th May 1884. All six gentlemen have since been regularly paid according to the annual salaries stated to be payable to each.

† Mr. Crofton, although appointed a Fellow of this University in April 1882, was Professor of Mathematics at Woolwich until 15th March 1884, and therefore the amount stated in this return to have been paid to him was only the proportionate part of his salary from that date to 18th July 1884. He has since been regularly paid at the rate of 400 *l.* per annum.

18 April 1885.

James Creed Meredith, }
D. B. Danne, } Secretaries.

J. Parser, Registrar.

It is to be observed that the only evidence of the standing of a Student of this College in the Royal University, is the record in the published University Lists of the last examination he passed. This the Registrar has given so far as the returns of the University, compared with the College Roll-book, enabled him.

There were in Session 1883-84, 32 students in attendance in the College who do not appear to have matriculated in the Royal University, and whose names do not therefore appear in the foregoing lists. Some of them matriculated in other Universities, and were admitted here *ad eundem*.

* Professor Crofton assumed the duties of his fellowship in May.

† In the Session 1883-84 there were no students of the third year in the Metaphysics Course; hence Professor Finlay's lectures were confined to the Logic Class in second year.

† Professor Hopkins was appointed on 30th January 1884, and entered into residence early in February; but as a Professor had been already appointed for the whole Session to teach the subjects assigned to Professor Hopkins, Professor Hopkins's services during the remainder of the Session were utilized chiefly in examination work.

§ In the Session 1883-84 no students of the third year took up Classics, the course to which Professor Stewart had been assigned. In the current Session 1884-85 Professor Stewart lectures regularly five days every week.
